

GreenCourt®

Mini-pitch systems

Made in Germany

GreenCourt[®]

What is it ?

GreenCourt[®] is the product line of our outdoor and indoor mini-pitch systems perfectly connecting sports and leisure.

Regardless if permanently installed or portable, **GreenCourt[®]** has the optimal solution for your intended use.

Revenue through sponsor advertising on rebound panels can provide continuing cash-flow to your organization.

GreenCourt[®] means years of experience combining continual product development with world-class service guaranteeing the best quality and safety.

We focus on recreational and elite players. **GreenCourt[®]** is tailored to everyone, so enjoy the many possibilities of our min-pitch system!

Which is the right **GreenCourt**[®] for my project?

Arena Pro

- I want a very rigid and weather-proof construction.
- It has to be a long-term panel system set in concrete, staying at the same place.
- Potentially I want a multifunctional solution (basketball, volleyball, etc.) and/or with more options (top net, LED lighting, etc.).

Arena Smart

- Having a level and hard underground where the panel system can be anchored, it is possible to save foundation work costs.
- The construction shall be removable (max. 1-2 times per annum) but generally stay installed.
- It has to be a rigid and weather-proof design.

StreetSoccer

- The weather-proof panel system shall be installed and disassembled more frequently. A space-saving transport and storage is important.
- Installation and removal shall be quick and easy (without tools).
- I want a system to be used for temporary events, festivities, fairs, etc..

Robustness			
Steadiness (Stability)			
Portability			
Multi-functional options			

I have decided on a **GreenCourt®**.

How do I get a price?

The following pages show the different **GreenCourt®** systems with all sizes and options.

Go through step by step to get your desired **GreenCourt®**.

GreenCourt® ARENA PRO 6

GreenCourt® ARENA SMART 12

GreenCourt® STREETSOCCER 16

GreenCourt® ARENA MINI 20

GreenCourt® SOCCERCAGE 22

GreenCourt® Arena Pro

- highest quality and stability for a long-term use
- a permanent installation staying at the same place
- extended posts, fixed in concrete foundations
- incl. the technical creation of a foundation plan, exactly for your project
- certified by a German testing institute: robust, weather-proof, low noise
- basic lay-out:
 - surrounding panel system, approx. 39.4" high, approx. 1.6" thick
 - sandwich panel structure, PU hard foam with a steel coating (one side green, one side light grey)
 - basic construction made of corrosion-free aluminium
 - fully welded soccer goals, integrated into the panel system
 - one entrance door per goal, integrated into a side part
 - high-quality goal and door nets
- many possibilities (net constructions, lighting, basketball, volleyball, etc.),
- panels suitable for the application of advertising
- perfect for all ages in sports clubs, schools, recreational facilities, hotels, social and cultural facilities, on company premises and public areas

Top net construction (49.2' x 32.8')
Art.-Nr. 10-30

Basketball construction
Art.-Nr. 10-18

GreenCourt® Arena Pro

1 Basic lay-out

- surrounding rebound wall system, 90° corners
- 2 soccer goals (oval goal frame profile) with one entrance door per goal (integrated into a side part)
- goal nets (mesh size 3.9"), door nets (mesh size 1.7")

inside dimension
of playing field

total perimeter
